

CORE SERVICES

As an EPC (Engineering, Procurement, Construction) turn-key solution provider, Life Energy provides a complete end to end experience.

Design Engineering

Consultancy

Project Management

Site survey and energy auditing

Site optimization

Leading technology supply

Solution installation & integration

Operations & maintenance

Real-time remote monitoring

ADVANTAGES OF RENEWABLE ENERGY GENERATION AND ENERGY EFFICIENCY FOR EDUCATION

REDUCE YOUR OPERATING COSTS

Renewable energy installations can help manage your energy costs and help save on day to day operating expenses. Savings that could be used for important educational programs and facilities

ENHANCE YOUR SCHOOL'S ENVIRONMENTAL REPUTATION

Become known among your peers as the school that cares about working towards an environmentally sustainable future for their students and the planet. Raise awareness of renewable energy amongst the faculty and students

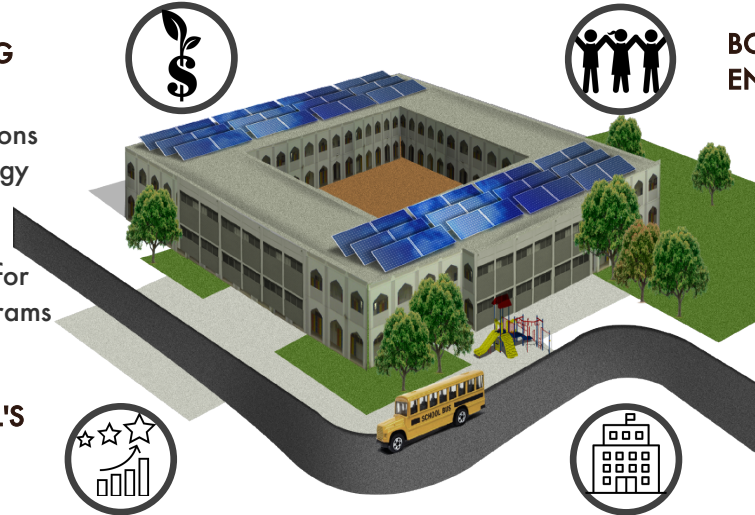

BOOST YOUR STUDENT ENROLMENT NUMBERS

Parents think deeply on the best school for their children. By being an energy and sustainability conscious school community, your school will have the advantage when it comes to the all important decision of school selection

NO BUILDING WORKS NECESSARY

Most educational institutions have wide flat rooftops, with little of no shading during the day. This allows for the maximum amount of solar panels to be installed, allowing a greater volume of energy to be generated and utilised throughout the day

ENERGY SOLUTIONS

RENEWABLE ENERGY GENERATION

- On-Grid and Off-Grid Solar Photovoltaics
- Wind Generation
- Hybrid Systems
- CPV – Concentrated Photovoltaic
- CSP – Concentrated Solar Power

ENERGY EFFICIENCY SOLUTIONS

- Building Energy Management systems
- Energy saving HVAC devices
- High-tech Thermal Barrier coatings
- LED technology
