

CORE SERVICES

As an EPC (Engineering, Procurement, Construction) turn-key solution provider, Life Energy provides a complete end to end experience.

Design
Engineering

Consultancy

Project
Management

Site survey and
energy auditing

Site
optimization

Leading
technology
supply

Solution
installation &
integration

Operations &
maintenance

Real-time
remote
monitoring

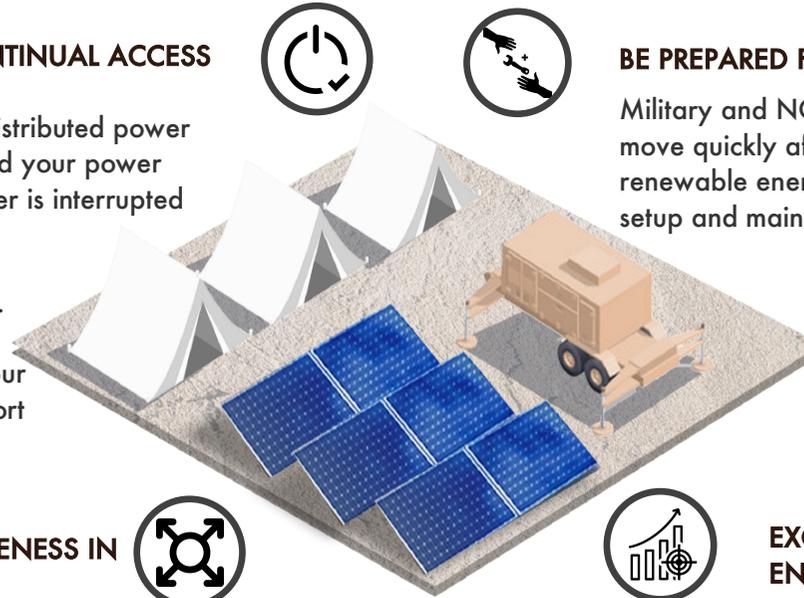

ADVANTAGES OF RENEWABLE ENERGY GENERATION AND ENERGY EFFICIENCY FOR MILITARY & NGOs

SAFEGUARD YOUR CONTINUAL ACCESS TO POWER

By taking advantage of distributed power sources you can safeguard your power supply when on-grid power is interrupted through severe weather events, acts of crime or terrorism or cyber attacks. Renewable energy generation can protect your facility against long or short term interruption to the power grid

EXTEND YOUR EFFECTIVENESS IN THE FIELD

Renewable energy solutions require little or no maintenance as they have very few mechanical parts. This can ease the burden for people in the field by utilising solar powered recharging stations, easy to set up off-grid communication towers and security lights.

BE PREPARED FOR RAPID DEPLOYMENT

Military and NGOs alike need to be prepared to move quickly after an event occurs. Portable renewable energy solutions can provide easy to setup and maintain off-grid energy for all your power, communication, targeting and computing requirements

EXCEED YOUR RENEWABLE ENERGY TARGETS

Ever increasing national and international renewable energy generation targets and greenhouse gas emissions reduction targets are becoming harder to achieve, but by installing renewable energy generation plants on multiple buildings, you will soon see those targets as achievable and go on to exceed them

ENERGY SOLUTIONS

RENEWABLE ENERGY GENERATION

- On-Grid and Off-Grid Solar Photovoltaics
- Wind Generation
- Hybrid Systems
- CPV – Concentrated Photovoltaic
- CSP – Concentrated Solar Power

ENERGY EFFICIENCY SOLUTIONS

- Building Energy Management systems
- Energy saving HVAC devices
- High-tech Thermal Barrier coatings
- LED technology
