

CORE SERVICES

As an EPC (Engineering, Procurement, Construction) turn-key solution provider, Life Energy provides a complete end to end experience.

Design
Engineering

Consultancy

Project
Management

Site survey and
energy auditing

Site
optimization

Leading
technology
supply

Solution
installation &
integration

Operations &
maintenance

Real-time
remote
monitoring

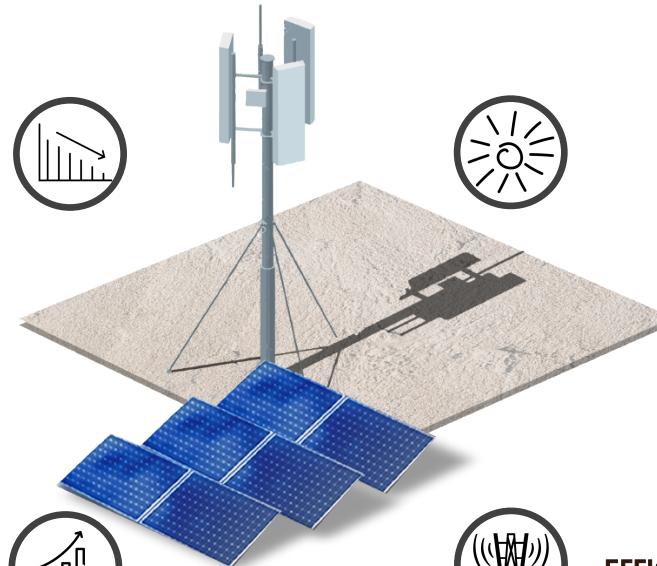

ADVANTAGES OF RENEWABLE ENERGY GENERATION AND ENERGY EFFICIENCY FOR TELECOMMUNICATIONS

REDUCE YOUR OPERATING COSTS

Reduce your operating costs and increase your profits by hedging against rising energy costs. Installing renewable energy generation systems allow you to fix your energy costs at lower than market rates.

ACHIEVE YOUR RENEWABLE ENERGY

Ever increasing national and international renewable energy generation targets and greenhouse gas emissions reduction targets are becoming harder to achieve, but by adding renewable energy solutions into your network, you will soon see those targets as achievable.

RELIABLE ENERGY SOURCE

Renewable energy generation solutions offer improved power quality and reliability to your network. Smart technology available today can keep your infrastructure running at peak performance and increase your network's reputation for up-time and reliability.

EFFICIENT MAINTENANCE SCHEDULES

With remote management of all your cell towers, you can eliminate unnecessary maintenance visits to remote sites and installations, lowering the overall cost of running your maintenance crew.

ENERGY SOLUTIONS

RENEWABLE ENERGY GENERATION

- On-Grid and Off-Grid Solar Photovoltaics
- Wind Generation
- Hybrid Systems
- CPV - Concentrated Photovoltaic
- CSP - Concentrated Solar Power

ENERGY EFFICIENCY SOLUTIONS

- Building Energy Management systems
- Energy saving HVAC devices
- High-tech Thermal Barrier coatings
- LED technology
